

**National Institute of Food Technology,  
Entrepreneurship and Management, Thanjavur (NIFTEM-T)**  
(An Institute of National Importance under Ministry of Food Processing Industries, Government of India)  
Pudukkottai Road, Thanjavur - 613 005, Tamil Nadu, India.

# Placement Brochure 2025 - 2026

**FSSAI Referral & NABL  
Accredited Laboratory**

# Preamble

National Institute of Food Technology, Entrepreneurship and Management (Thanjavur) is national level research and academic institution under the ministry of Food Processing Industries, Government of India. The Institute has its origin way back in 1967 when it was started as a tiny R&D laboratory in the Modern Rice Mill Complex of Tiruvarur Cooperative Marketing Federation (TCMF) at Tiruvarur, Tamil Nadu, India. The objective of the first lab was identifying technologies for preserving high moisture paddy. This laboratory was later upgraded as a national laboratory and renamed as Paddy Processing Research Center (PPRC) in 1972. The focus of PPRC was to solve problems related to post harvest processing and preservation of paddy. Later, the institute was shifted to its current location at Thanjavur in 1984.

Considering the vital importance of strengthening the R&D and empowering the human capital in food processing sector, post-harvest processing, Preservation and value addition, Ministry of Food Processing Industries (MOFPI) has upgraded the then PPRC to National Institute, Indian Institute of Crop Processing Technology (IICPT) in 2008 and as Indian Institute of Food Processing Technology (IIFPT) on 31st March 2017. Recently, the Indian Institute of Food Processing Technology (IIFPT) has attained the Institute of National Importance (INI) status by “The NIFTEM Act 2021” which has been passed in the Parliament. The Institute is henceforth being coined as “National Institute of Food Technology, Entrepreneurship and Management”, Thanjavur (NIFTEM-T). The act enables functional autonomy to the institute to introduce new academic courses in the mandated fields of Food Technology, Entrepreneurship and Food Business Management. In its upgraded form, NIFTEM - Thanjavur will focus on providing solutions to all food processing areas including fish, meat and dairy products processing through intensive research and development activities. The panoramic campus of the institute is at a distance of 2 km from Thanjavur Central Bus Stand and 5 km from Railway Station.

**Dr. V. Palanimuthu**  
**Director, NIFTEM-Thanjavur**

**Focus on inclusive growth by accomplishing  
overall sustainability safety and economic  
prosperity in the food sector**

# Our Services

## Mandates

- \* Basic, applied and adoptive research and development in post harvest processing, preservation and value addition of cereal grains, pulses, millets and oil seeds and crops of wetlands and storm prone regions, including plantation, spices, fish, meat, dairy and other important food crops.
- \* Education and training for creating strong human resource capacities for the food processing industry and academic institutions in the country.
- \* Research and development for creating environment friendly methods of utilizing the vast biomass in the country and food industrial wastes for increased economic returns of the producers and processors.
- \* Training for upgrading the skills of academicians, research students and food processing entrepreneurs and manpower for promoting growth of new food industry and entrepreneurship in the country.
- \* Consultancy to existing food industries or for creation of new food industries for better performance, efficient functioning, and for byproduct and waste utilization and effective effluent management.
- \* Act as a national institute for the information generation and flow on post harvest processing, preservation and value addition of foods and to create linkages with related industries, academic and R&D Institutions across the country and around the world.
- \* Analytical services to food industries and research institutes for testing the food and other organic samples and providing reports on the proximate and ultimate compositions.

## Facilities

- \* State-of-the-Art Infrastructure
- \* NABL Accredited & FSSAI Referral Laboratory
- \* Food Processing Business cum Training Incubation Centre
- \* Knowledge Centre and Computing Facilities  
World Class Teaching Laboratories

## Departments

- \* Food Process Engineering
- \* Food Process Technology
- \* Food Safety and Quality Assurance
- \* Food Plant Operations, Incubation & Entrepreneurship
- \* Food Packaging and Storage Technology
- \* Food Business Management

## Courses Offered

- \* BTech (Food Technology)
- \* MTech (Food Process Engineering)
- \* MTech (Food Process & Technology)
- \* MTech (Food Safety & Quality Assurance)
- \* PhD (Food Process Engineering)
- \* PhD (Food Process & Technology)
- \* PhD (Food Safety & Quality Assurance)

## Course Curriculum and Details B. Tech (Food Technology)

- » Unit Operations in Food Processing.
- » Heat and Mass Transfer
- » Thermodynamics
- » Fluid Mechanics
- » Basic Electrical and Electronics
- » Food Engineering
- » Instrumentation and Process Control
- » Refrigeration and Cold chain
- » Food Process Equipment Design
- » Food Packaging Technology and Equipment
- » Food Storage Engineering
- » Food Biochemistry
- » Food Biotechnology
- » Food Microbiology
- » Processing Technology of Cereals, Legumes and Oilseeds
- » Processing Technology of Dairy products
- » Processing Technology of Fruits and Vegetables
- » Bakery, Confectionery and Snack Products
- » Processing Technology of Beverages
- » Processing of Spices and Plantation Crops
- » Processing of Meat, Poultry, Fish and Marine Products
- » Sensory Evaluation and Food Products
- » Food Quality, Safety Standards and Certification
- » Food plant sanitation
- » Business Management, Economics and Entrepreneurship Development

## Course Curriculum and Details M. Tech

### a. M. Tech in Food Technology (Food Process Technology)

- » Food Product Development and Nutraceuticals
- » Nanotechnology in Food Systems
- » Fruits and Vegetables
- » Processing technology of Dairy and Dairy Products
- » Meat poultry and fish
- » Advanced Instrumentation
- » Techniques for Food Quality Analysis
- » Engineering applications in processing and preservation of food
- » Thermal and Non-thermal processing of food
- » Food Microbiology
- » Advances in Food Science and Technology
- » Food Biochemistry
- » Design of experiments

### b. M. Tech in Food Technology (Food Process Engineering)

- » Novel Thermal and Non- Thermal processing of foods
- » Transport phenomena in food processing
- » Unit operations in food process
- » Engineering Food packaging
- » Engineering properties of Food materials
- » Storage Engineering and Handling of agricultural produce
- » Process control systems and sensors in food industry
- » Microbiological safety of foods
- » Food Biochemistry
- » Advance instrumentation techniques for food safety analysis
- » Design of experiments

### c. M. Tech in Food Technology (Food Safety & Quality Assurance)

- » Principles of Food Safety
- » Food adulterants and Screening Techniques
- » Advances in Food science and Technology
- » Microbiological safety of Foods
- » Basic and Advanced Instrumentation Techniques
- » Food Safety and Quality Auditing
- » Food Safety Assurance and Certification.
- » Engineering applications in Processing and Preservation of Food
- » Design of Experiments

# Collaborations

## NIFTEM-T signed MoU with many national universities/colleges/institutions like

- MS Swaminathan Research Foundation, Chennai
- NIT, Trichy
- VIT, Vellore
- Central Electronics Engineering Research Institute, Rajasthan
- Central Railside Warehouse Co. Ltd., New Delhi
- ICAR-CTCRI, Thiruvananthapuram
- Gandhigram Rural Institute, Dindigul
- Jawaharlal Nehru Technological University Kakinada
- CSIR- CFTRI, Mysore
- Entrepreneurship Development Institute of India, Guwahati, Assam
- Punjab Agricultural University
- University of Agricultural Sciences, Raichur Karnataka.
- Marathwada Agricultural University, Parbhani Maharashtra

## MoU with International Universities/Colleges

- Natural Resources Institute, Greenwich London
- Kansas State University, Manhattan
- Oklahoma State University, Oklahoma
- Kururay Co. Ltd. Tokyo, Japan
- Oniris France
- Ambo University, Ethiopia
- Asian Institute of Technology, Thailand
- Auburn University, USA
- Wageningen University, Netherlands
- Saskatoon Pulse Growers, Saskatoon, Canada
- Illinois Institute of Technology Chicago, USA
- Colorado State University, Fort Collins, USA
- McGill University, Montreal, Canada
- University of Saskatchewan, Saskatoon, Canada
- University of Nebraska, Lincoln, USA
- University of Manitoba, Winnipeg, Canada

## AAMIL RIZWAN P S

BTech Food Technology

### Project Title

- ♦ Study on the Effect of NIR Treatment on Storage Stability of Pearl Millet Flour and Rice Flour

### Internships

- ♦ NCJ Agro Food Processing Company
- ♦ NSR Food Products Pvt Ltd

### Skills

- ♦ Idea Generation
- ♦ Creative Thinking And Problem Solving
- ♦ New Product Development
- ♦ Teamwork and Collaboration
- ♦ HACCAP Implementation

aamilrps2022bt@iifpt.edu.in

Languages Known: English, Malayalam, Tamil, Hindi, Arabic

## AAMNESH A

BTech Food Technology

### Project Title

- ♦ Development of pH responsive film to check the Chicory Adulteration in coffee

### Internships

- ♦ Kannika Modern Rice Mill - Pudukkottai
- ♦ Quality Fusion India
- ♦ Vijay Dairy - Trichy
- ♦ SKM Egg Products - Erode
- ♦ Kals Breweries - Trichy

### Skills

- ♦ New Product Development
- ♦ Analytical And Laboratory Skills
- ♦ Autocad, Scada, Coreldraw

aamnesha2022bt@iifpt.edu.in

Languages Known: Tamil, English, Hindi

## ABIYAH GLORY W

BTech Food Technology

### Project Title

- ♦ Evaluation and Value Addition of Indigenous Rice Varieties

### Internships

- ♦ Adyar Ananda Bhavan Sweets India Pvt Ltd. ( Research And Development Department Intern )

### Skills

- ♦ Handling Of Analytical Instruments
- ♦ Proximate Analysis
- ♦ HACCP And CCP
- ♦ Problem Solving And Team Management
- ♦ Futuristic And Flexible Mind
